

We are growing. Are you?

Ogone is looking for a **TECHNICAL SUPPORT ENGINEER 1ST LINE** m/f for Mijdrecht or Brussels HQ

YOUR JOB

Reporting to the Team Leader Technical Support, your main responsibility is to take care of all incoming 1st line technical support demands coming from our customers (merchants) and partners in our Dutch speaking countries. Besides that you will – depending on your language skills - act as a backup for your colleagues within the Customer Care Technical Support team for the other countries where Ogone is active.

The job positioning is based either in Mijdrecht or in Brussels, depending on the candidate location.

After an internal training period about our service offers & technical solutions, you will be an expert in Ogone products and services. This will allow you to perform the following tasks:

- ➔ Treat all inbound 1st line technical support requests (phone, e-mail, ticket)
 - Assist new customers with setting up test accounts in our free trial environment and provide high quality support
 - Support customers in their transition to the production environment to ensure a smooth start-up of their online payment activities
 - Ensure the continuity of our customers business by responding quickly and taking the correct measurements on day-to-day questions on the services provided by Ogone
 - Escalate appropriate support requests to a 2nd or 3rd line support level.
- ➔ Act as a backup for the operational and administrative support colleagues for all countries in which Ogone is active

- 
- Pro-active screening of the support mailbox and ticketing system and take appropriate action.
 - Use the offered support tools (software, FAQ, activity logging, etc.) in the most optimal way and report update requirements where necessary
 - Active collaboration in project work and work to a plan
 - Close interaction with other departments (Sales, Marketing, Development, etc.)

YOUR QUALITIES

For this challenging function, we need a talented individual with both good analytical and administrative skills:

- Bachelor Degree with preferably 1-2 year(s) experience in a similar position
- Fluent in Dutch with a good knowledge of English; any other European language is considered an asset
- Very good relational and communication skills
- Reliability, sense of responsibility and commitment to results
- Self-motivated and showing initiative
- Showing ability to work in a co-operative and flexible way
- Displaying a disciplined and positive approach, persevering when faced with obstacles
- Curious to learn new ideas and concepts in internet technologies, e-commerce, etc.

WHY OZONE?

You work with complex products in a host of different sectors at the national and international level. You grow because your job challenges your skills every day. Your colleagues are all totally committed: there's a reason why we are growing all the time. In our open corporate culture you have freedom to achieve your goals and further your career.

Set your sights on becoming Technical Support Engineer 1st Line? We welcome your drive. Your responsibilities and experience attract a competitive salary with benefits and training opportunities..
