

We are growing.
Are you?

Ogone is looking for an
AGILE PRODUCT OWNER M/F
for our Brussels HQ

YOUR JOB

Reporting to the Head of Product Management, you are a member of the Product Management Team. Your mission is twofold:

- Together with your Product Owner colleagues you manage the entire backlog of potential and ongoing projects within Ogone.
On behalf of the sponsors (senior management) you ensure that the features that create the most value for Ogone are delivered.
- Within Agile you represent the business departments (Sales and Product Management) in a scrum team: you initiate new development and accept/reject results. And you manage the sprint backlog of this scrum-team.

After an intensive training period, you will be an expert in Ogone products and services and also in the Ogone product development process, allowing you to:

- Manage the prioritization process for new IT-developments: ensure that all stakeholders set their priorities. You coordinate between senior managers from Sales, Product Management and IT
- Prepare the content of the IT development cycles (Agile – sprints) together with the Product Managers and the IT-teams. You are responsible for the quality of the user stories
- Be responsible for the acceptance or rejection of development results
- Ensure that the sponsors (senior management) are informed about the status of their projects
- Contribute to the improvement of the Ogone product development process
- Identify and anticipate any issues with your projects and raise this to the adequate level of management when needed
- Participate in the definition and deployment of the Ogone project management culture within the organization

ogone

YOUR QUALITIES

For this challenging function, we need a talented individual with excellent coordinating and analytical skills. As candidate you match the following requirements:

- University degree (ideally business, finance or IT oriented) or equivalent through experience
- Knowledge of English is mandatory. French, Dutch and German are assets
- Proven experience in a Project Management function within the Service/Solution sector is a must, showing your ability to successfully manage complex, high risk and/or large projects
- Ability to manage a complex process with many very senior stakeholders, various constraints and a lot of pressure
- Ability to pro-actively drive a set of several projects, each moving forward at a different pace, sometimes depending on clients or partners
- Reliability, sense of responsibility and commitment to results
- Organizational & time management skills
- Leadership: motivate the members of a scrum team without being their manager

WHY OZONE?

You work with complex products in a host of different sectors at the national and international level. You grow because your job challenges your skills every day. Your colleagues are all totally committed: there's a reason why we are growing all the time. In our open corporate culture you have freedom to achieve your goals and further your career.

Set your sights on becoming Agile Product Owner? We welcome your drive. Your responsibilities and experience attract a competitive salary with benefits and training opportunities.
